

Rain Barrels Now Available!

Rain Barrels are a simple, efficient, low-cost method for homeowners to collect and recycle water.

- Collecting the mineral rich & chlorine free rain that falls on your roof can help your garden, houseplants and reduce your water bill!
- Modern rain barrels are sealed, safe around children and insect resistant.
- A hose spigot on the front makes the captured rain water available.
- Using Rain as a Resource, in Rain Gardens and Rain Barrels can have a dramatic impact on water quality in our rivers and streams and will help reduce flooding.

The 55 gal, terra cotta, gray or charcoal color, recycled food grade plastic barrel has a plastic valve. (Picture above Fig. A) It has a screw off lid that has already been cut and screened to accept your downspout. Overflow or connections have already been installed on these barrels too!

The Barrels sell for \$ 85.00. Cash or Check accepted.
